### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Cushing on 9 & 18 February 2004.

The application has been amended as follows:

#### **In the Claims:**

In claim 4, line 2, "filed" has been correctly spelled as --filled--.

In claim 8, line 2, --has-- been inserted prior to "planar".

#### **Reasons for Allowance:**

The following is an examiner's statement of reasons for allowance: With respect to the allowability of claim 20, the examiner disagrees with applicants' contention regarding the "distribution element" as described in the last paragraph of page 14 of applicants' remarks. The examiner contends that such a distribution network was indeed disclosed by the Hampel ('462) prior art reference and thus should not be construed as a basis for allowing claim 20. However, the examiner concurs with applicants' contention in the second full paragraph of page 21 of applicants' remarks that Hampel ('462) does not teach or suggest at least two interactive segments whose shapes are different and recognizes that limitation as the reason claim 20 distinguishes over the closest prior art of record [i.e. Hampel ('462)].

Art Unit: 2817

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Benny Lee whose telephone number is 571 272 1764.
